AMUSEMENTS

At the Liberty.
The cutest dog on the screen is Lewie, S. Stone's dog, and it is seen in "The Man of Bronze," the new World picture, in which Mr. Stone is starring. This production is scheduled for showing as the Liberty theater today, and playing opposite Mr. Stone in this attraction is Marguerite Clayton, who is extremely popular with picturegoers. Referring again to the dog, it just acts natural in "The Man of Bronze," but in acting natural it makes a powerful appeal to all those people who like to see clever canines on the screen.

Picture of Former Kaiser is Banned in German Schools

By The Associated Press
Berlin, Monday, March 31—All the Prussian district and provincial government school authorities received notice by Herr Haenisch, minister of religion and education, that pictures of former Emperor William and the former emperor's wife may no longer be hung in the school rooms.

The order originates from a newspaper in East Prussia, where the teacher put up Emperor William's picture in his class after the revolution, but was ordered by the authorities to hang it up again, whereupon he entered a protest.
